

Vienna, 2017 March 19th

Hello Frisbee Sport Federations,

Thank you for your response to our recent online survey asking about “Train the Trainer” (T₊T) programs in your country.

Result of the T₊T Survey

Of the 16 responses we received (thank you!) 44% have a “Train the Trainer” (T₊T) program, 37% do not and 19% are in development. The responses were all very positive and all were willing and able to support the program.

The EUF is not planning to replace existing “TtT” programs, but would like to encourage development by winning and instructing trainers to support growth throughout Europe.

EUF T₊T Script

Our plan is to run a preliminary Level one T₊T during the EYUCup event in Debrecen on the 14th (afternoon) to 16th of July, 2017.

Based on the response of the recent online form many national education professionals would be willing and able to send an Ultimate education professional to Debrecen to run the planned training session.

We hope to bring in several professionals from different nations to help run the session and to discuss how the program will be continued in the future. One existing “script” in English will be used as a basis for this initial training session.

It is important to note that this “script”, will not be adopted as the EUF “script”, but will help determine what topics are to be included in the EUF “script” being developed by the group of professionals. For this reason, we hope for a group of professionals that are willing

support this effort through 2018 when the 2nd step of the Level One $T_{+}T$ Certification Process will continue.

During this 3 - 4 day period, during the EYUCup 2017, the group will not only train the future trainers, but will also spend time together to discuss the future certification process. It is our plan to complete the First Level One $T_{+}T$ Certification Process in 2018 at the regional Culture Camps, where the participants will complete their theoretical and practical training to receive the official EUF Level One certificate.
