

I have been the youth coordinator officially since 2014, but have worked for EUF mainly organizing youth events since 2010/11.

I started playing in 1985 and still play actively and competitively, but devote more time to coaching my junior club teams (U14/17/20) and seeing to youth ultimate development Europe wide, with a special focus on activities in eastern Europe.

In my work for EUF, I pursue three main goals:

- to ensure well organized international EUF sanctioned youth events, namely EYUC
- to enable as many interested kids and teams to participate in such events
- to assist any new local or regional youth activities

With the EUF youth agenda, a road map for 2017-19, I believe that we can reach these goals.

While in the past the focus was all on the actual competition, we would like to give more room for intercultural social experience. Future events may include skills camp, ha5t play, mixed ultimate and coaching clinics.

The EUF youth committee is currently altered with regards to personnel. In the past, the active members were solely Mark Kendall and myself, with some assistance from Paul Eriksson. We are taking on new members like Gerhard Klein from Austria and Laszlo Fodor from Hungary, to replace the less active members. We still seek to include someone with a better knowledge of the south western federations, and also it would be good to include a female committee member.
