

- I used to work for the Finnish Flying Disc Association 2011-2015 and had much better time to be active also on EUF board
- I've had a different job for a year now and feel I have not been super active on EUF after that and I have not had much time to comment all emails and discussions.
- As I women rep I have not done "anything" to develop women ultimate in Europa
- at the same time I think there should always be also some women on the EUF board

Of my future in EUF...

- if there is candidates whom can be more active, I'm happy give them space
- if I'm needed/elected to stay I can also continue on the board but I can not promise to be more active than what I have lately been.
