

I am writing to apply for the aforementioned position. My name is Michael Hermanowicz, but everyone knows me as Morris Starling.

Remaining details that are asked for are:

DOB: 23.10.1981

Nationality: Polish

Motivation and Ultimate CV:

Like many I have evolved from just being a player to being a coach and finally and organiser of events and developer of the Ultimate scene. I started playing in UK in 2007 and have slowly been discovering how more and more Ultimate is becoming ingrained in my life patterns and choices. Along side my work experience in Data Analysis and further in banking I could see how experience from my corporate work can be applied to make this sport better. In 2012 I have discovered tournaments in Spain and Portugal and I have since become a recognizable face on that peninsula which resulted in quitting my job in London and moving to Seville and representing Spain in Masters division in Copenhagen.

I have currently moved back to Poland and taken over the team that is in my heart, Astro Disco, and I have been involved in organising Indoor and Grass Nationals. I am also standing behind the success of 10th EUFC in Wroclaw in 2015 and WJUC 2016 in the same city. I am currently actively involved in introducing Ultimate in schools in Bydgoszcz (I have run 9 classes in the 2015/16) academic year. My plans for 2016 are:

- 1) creating regular Ultimate classes in 4 schools in Bydgoszcz
- 2) creating 2 university teams in Bydgoszcz
- 3) training PE university and school teachers for them to be able to run the classes themselves
- 4) invest more time in the development tournaments in Poland -> and growing them international

I am also an advocate of Ultimate without referees. I strongly believe in pure Spirit Of The Game and I have witnessed myself how it transforms individuals as well as whole teams and I have signed up to volunteer with ERIC to run local clinics here in Poland.

Ultimate is my passion, my daily bread and I find motivation in passing it onto the next generations. I would like to gain access to more opportunities by investing my time and experience in EUF work. Privately I'm freelancing, so I am available during normal working hours.
