

Name Sandro
Surname Soldati
Nationality Italy

I am trying to make this step because I think that my country Italy need to reach the level of organization that others country already have.

So my purpose would be improving connection between European countries to give theme new possibility of sharing their skills.

In Italy the junior movement is going very fast, whereas the organization of the federation is still too slow.

The EUF could be the one that interface different countries to help theme analyzing different experience about solving problems referred to our kind of sport.

My curriculum report that I started playing ultimate in 1999.

I played in different Italian teams, now I am coaching one of this.

I have coached the Italian master team since 2007 in all its international tournaments till Europeans at Copenhagen.

I was the Italian federation responsible for the junior Europeans in Colonia in 2013.

In this days I am also sending my candidacy to the italian federation for the president chair.
